Texas Commission on Environmental Quality

IN THE MATTER OF	§	BEFORE THE
AN ENFORCEMENT ACTION	§	
AGAINST VAN DER HORST U.S.A.	§	TEXAS COMMISSION ON
CORPORATION;	§	
RN100574235	§	ENVIRONMENTAL QUALITY

DEFAULT ORDER DOCKET NO. 2006-2186-IHW-E

At its	agenda, the Texas Commission or	n Environmental Quality,
("Commission" or "T	CEQ") considered the Executive Director's Prelimi	inary Report and Petition
filed pursuant to TEX.	WATER CODE chs. 5 and 7 and Tex. HEALTH & SAFE	ETY CODE ch. 361, and the
rules of the TCEQ, wh	hich requests appropriate relief, including the impos	ition of an administrative
penalty and corrective	e action of the respondent. The respondent made the	ne subject of this Order is
Van Der Horst U.S.A	. Corporation ("Van Der Horst").	

The Commission makes the following Findings of Fact and Conclusions of Law:

FINDINGS OF FACT

- 1. Van Der Horst owns and operates an electroplating facility at 419 East Grove Street, Terrell, Kaufman County, Texas (the "Facility").
- 2. The Facility involves the management and/or disposal of industrial hazardous waste solid waste as defined in Tex. Health & Safety Code ch. 361.
- 3. During an inspection conducted on September 22, 2006, a TCEQ DFW Regional Office investigator documented that Van Der Horst:
 - a. Failed to ensure containers of hazardous waste are always closed during storage, except when necessary to add or remove waste. Van Der Horst also failed to label or mark containers with either the words "Hazardous Waste" or other words that would identify the contents of the container. Specifically, a 55-gallon drum in the Satellite Accumulation Area and two containers of hazardous waste in the Container Storage Area were not kept closed and were not marked with the words "Hazardous Waste" or other words that identify the contents on the containers.

- b. Failed to update the Notice of Registration ("NOR") and notify the Executive Director in writing or using electronic notification software provided by the Executive Director, that storage, processing, or disposal activities are planned, at least 90 days prior to engaging in such activities. Specifically, the NOR did not reference the use of a new Container Storage Area near the former aircraft plating area in the northwest corner of the building and the respondent was recycling spent kerosene as heating oil without notifying the TCEQ.
- c. Failed to ensure that hazardous waste is not accumulated on-site for more than 90 days without a permit. Specifically, ninety-five 55-gallon drums, four 300-gallon totes, and a half full 500-gallon tank of spent kerosene were being accumulated speculatively for use as heating oil without demonstrating that material is not a waste and that there is a known market for disposition of the material.
- d. Failed to conduct hazardous waste determinations. Specifically, Van Der Horst failed to conduct hazardous waste determinations on waste in a 55-gallon drum, a 20-gallon cardboard drum, and a half full 500-gallon tank located in the wastewater treatment/warehouse building.
- 4. During a record review conducted on December 11, 2006, a TCEQ Central Office investigator documented that Van Der Horst failed to pay outstanding hazardous waste generation fees for TCEQ Financial Account Nos. 0300195G, 23703119 and 0500993 for fiscal year 2006.
- 5. Van Der Horst received notice of the violations on or about November 26, 2006.
- 6. The Executive Director filed the "Executive Director's Preliminary Report and Petition Recommending that the Texas Commission on Environmental Quality Enter an Enforcement Order Assessing an Administrative Penalty Against and Requiring Certain Actions of Van Der Horst U.S.A. Corporation" (the "EDPRP") in the TCEQ Chief Clerk's office on June 6, 2008.
- 7. By letter dated June 6, 2008, sent via certified mail, return receipt requested, and via first class mail, postage prepaid, the Executive Director served Van Der Horst with notice of the EDPRP. According to the return receipt "green card", Van Der Horst received notice of the EDPRP on June 11, 2008, as evidenced by the signature on the card.

8. More than 20 days have elapsed since Van Der Horst received notice of the EDPRP, provided by the Executive Director. Van Der Horst failed to file an answer to the EDPRP, failed to request a hearing, and failed to schedule a settlement conference.

CONCLUSIONS OF LAW

- 1. As evidenced by Finding of Fact Nos. 1 and 2, Van Der Horst is subject to the jurisdiction of the TCEQ pursuant to Tex. Health & Safety Code ch. 361 and the rules of the Commission.
- 2. As evidenced by Finding of Fact No. 3.a., Van Der Horst failed to ensure containers of hazardous waste are always closed during storage, except when necessary to add or remove waste. Van Der Horst also failed to label or mark containers with either the words "Hazardous Waste" or other words that would identify the contents of the container. Specifically, a 55-gallon drum in the Satellite Accumulation Area and two containers of hazardous waste in the Container Storage Area were not kept closed and were not marked with the words "Hazardous Waste" or other words that identify the contents on the containers, in violation of 30 Tex. ADMIN. Code § 335.69(d)(1) and (2) and 40 Code of Federal Regulations ("C.F.R.") § 262.34.
- 3. As evidenced by Finding of Fact No. 3.b., Van Der Horst failed to update the Notice of Registration ("NOR") and notify the Executive Director in writing or using electronic notification software provided by the Executive Director, that storage, processing, or disposal activities are planned, at least 90 days prior to engaging in such activities. Specifically, the NOR did not reference the use of a new Container Storage Area near the former aircraft plating area in the northwest corner of the building and the respondent was recycling spent kerosene as heating oil without notifying the TCEQ, in violation of 30 Tex. ADMIN. CODE § 335.6(a) and (c).
- 4. As evidenced by Finding of Fact No. 3.c., Van Der Horst failed to ensure that hazardous waste is not accumulated on-site for more than 90 days without a permit. Specifically, ninety-five 55-gallon drums, four 300-gallon totes, and a half full 500-gallon tank of spent kerosene were being accumulated speculatively for use as heating oil without demonstrating that material is not a waste and that there is a known market for disposition of the material, in violation of 30 Tex. ADMIN. CODE § 335.69(a) and 40 C.F.R. § 262.34(a).
- 5. As evidenced by Finding of Fact No. 3.d., Van Der Horst failed to conduct hazardous waste determinations. Specifically, Van Der Horst failed to conduct hazardous waste determinations on waste in a 55-gallon drum, a 20-gallon cardboard drum, and a half full

- 500-gallon tank located in the wastewater treatment/warehouse building, in violation of 30 TEX. ADMIN. CODE § 335.62 and 40 C.F.R. § 262.11.
- 6. As evidenced by Finding of Fact No. 4, Van Der Horst failed to pay outstanding hazardous waste generation fees for TCEQ Financial Account Nos. 0300195G, 23703119 and 0500993 for fiscal year 2006, in violation of 30 Tex. ADMIN. CODE § 335.323 and Tex. WATER CODE § 5.702.
- 7. As evidenced by Finding of Fact Nos. 6 and 7, the Executive Director has timely served Van Der Horst with proper notice of the EDPRP, as required by Tex. WATER CODE § 7.055 and 30 Tex. ADMIN. CODE § 70.104(a).
